## Divelbiss E-News - May 2015

### NEW!

### Versatile Base (VB) Faceplate Kits and Overlays

**Extended Temperature Versatile Base (VB-2000 Series) HMIs can be easily mounted using new Faceplate Kits**

The extended temperature HMIs, models [VBDSP-01](#) and [VBDSP-02](#) can now be easily mounted and sealed to a door or door panel using a faceplate kit. A generic overlay with LED and button text comes installed on the faceplate.

The [VBDSP-FPKIT-01](#) is designed for the 2x16 model [VBDSP-01](#) and the [VBDSP-FPKIT-02](#) is designed for the 4x20 model [VBDSP-02](#).

Each Faceplate kit includes the overlay, mounted on the faceplate, the sealing gasket and all the necessary hardware to mount the VBDSP-XX to the faceplate and the faceplate assembly into the door or panel. A door / panel cut-out is required.

**For those wishing to mount the VBDSP-01 or VBDSP-02 directly to the panel door, we**

### Industrial Internet of Things (IIOT) - What can it do for you?

All you have to do is look around you today to see how the internet and mobile devices have integrated into our daily lives. Now more than ever, instant information is becoming the new normal.

The industrial workplace is no different. Customers are requesting instant status, remote monitoring and even control to local and remote systems, devices and processes like never before.

Though forecast numbers vary greatly when it comes to the **Industrial Internet of Things**, the consensus is that the market for the **IIOT is going to grow dramatically by 2020.**

Some questions to ask:

*What value added technology and services can you add to your product offerings?*

*Will your customers need instant access to data and control?*

*Where do you start looking for solutions?*

Divelbiss has the technology, expertise and services to work with you on your Industrial Internet of Things (IIOT) needs.

Coming this summer, **VersaCloud M2M**, a **complete, seamless end to end solution** for remote monitoring, control

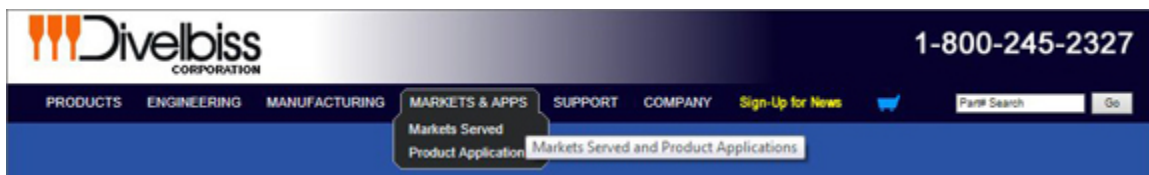

also offer the overlays as a separate item for a generic front panel. The application of the overlay will seal the VBDS-XX button, LED and display cut-outs from the environment. [See all the faceplate kits and overlays.](#)

and data reporting by Divelbiss Corporation.

With **VersaCloud M2M** you can get IIOT enabled with one stop. We have complete solutions including hardware, software, cloud and communications options for nearly any application.

## Markets and Applications

A recent Divelbiss.com website update added a new menu category: [Markets & Apps](#).

This new section provides a list of **Markets** that use our products and a section of **Product Applications**. Check back as we will update with new markets and product applications.
